Proposal for dwellings at permanent rehousing – proof of residence certificate

The period of residency in the housing association determines the proposal of dwellings for permanent rehousing. The tenants with the longest periods of residency in the housing association will receive a proposal for a dwelling first – pursuant to Section 86(4) of the Danish Common Rental Act.

If you have moved internally in the housing association and if you wish to maintain the full period of residency, you must obtain a proof of residence certificate from Gladsaxe Municipality in order for us to add your period of residency from your first dwelling. This only applies in case of an uninterrupted period of residency at Værebros Park; if you have moved out of the housing association, the period of residency will count from when you last moved into the housing association.

Tenants' children, who have received their own flats, can only include a period of residency for the period they have had their own dwelling.

If you do not wish to submit a proof of residence certificate, we will propose a dwelling based on the period of residency in your current dwelling.

The above is only relevant if you wish to move to a new dwelling after the renovation. If you are moving back to your own dwelling, you do not need a proof of residence certificate.

Please bring the proof of residence certificate at your rehousing interview.

You have to pay any expenses for obtaining the proof of residence certificate.

You can order the proof of residence certificate here:

Borgerservice, tel.: 39575000, Rådhus Allé 7, 2860 Søborg, or at <https://www.borger.dk/>

Kind regards
